

ESCAPE THE LANDSCAPE

Escape the Landscape is acclaimed underground writer F. J. Gouldner's second collection. His first book *Mindscreams* took the independent literary world by storm with its eclectic and original mix of brutal short stories. The fiction essays and autobiographical pieces here should do the same, but in an entirely different way.

F. J. Gouldner has been writing for as long as he can remember. He spent several years overseas and he has made an art of keeping his head above water. Life happens but the writing comes anyway.
